

## ***Wish your child came with an owner's manual?***

*Your child's birth date holds the key to all the information you'll ever need to raise a happy and successful child!*

# **Understanding Your Child Through Numbers**

## ***Parenting With Numerology Workshop***

### ***Learn about your child through the power of Numerology!***

- In this full-day workshop, learn what makes your child tick and understand their individual nature through the power of numbers. Discover and encourage their strength areas and learn gentle ways to foster their weaker areas. Set your child up for maximum success and happiness through this highly individualized parenting style.

### ***Is your child a thinker, feeler or doer?***

- Have you ever wondered why your child likes to "watch" instead of participating in physical activities (primarily a thinker)? Or, why they have a temper tantrum after a long day of "out and about" (primarily a feeler)? Or, why they just don't ever seem to listen, your words often going in one ear and out the other (primarily a doer)?

### ***What experiences and life lessons await your child?***

- The first half of the day will be spent learning about your child's unique essence and traits. In the afternoon, we will focus on what your child will do with those tools and what lessons and experiences are ahead for them.

### ***Tired of parenting by trial and error?***

- If you're tired of fighting with your child/teen or frustrated by playing the guessing game with a baby or toddler, look no further than the numbers to give you the owner's manual you've been dreaming of!

**Next Workshop:** Saturday, May 2<sup>nd</sup> at the Ramada in Fredericton, 9:30am - 4:30pm  
**Fee \$90** (includes manual/workbook)

(Pre-registration is required, fee due at time of registration)
